

Overnight Participant Suggested Packing List

Please keep in mind that the weather in Montana can vary greatly. Temperatures may be in the 80's or 90's during the day and then the 30's or 40's in the evening/night(especially in June). Inclement weather systems can move through quickly as well, turning from sunshine to downpours in a matter of minutes. We want to make sure you are comfortable regardless of what mother nature throws at us. The best way to do that is to bring a bit of everything. Nothing says cozy like a nice cotton sweatshirt or flannel, once wet though cotton is cold cold cold. Synthetics and wool are great because they maintain their insulating qualities even when wet.
